

DIPLOMATIC ACADEMY: 15 YEARS OF INNOVATIVE TRAINING IN MOTION CONTROL

Diplomatic Academy, the technical training school in hydraulics and mechatronics, celebrates its fifteenth anniversary with an innovative focus in the field of motion control. Through online and face-to-face courses and a constant commitment to the new frontiers of innovation, the Academy confirms its role in training highly qualified professionals for the industry of the future.

Parabiago (Milan), November 22nd, 2023 – Diplomatic MS, a reference point for the design and production of advanced motion control systems, celebrates the fifteenth anniversary of Diplomatic Academy, its training school.

"People are the main asset for Diplomatic MS and for its customers. Training is a crucial lever in a landscape transformed by today's complexity. Our goal is to offer support through the Group's expertise in hydraulics, electromechanics and IO-Link," said Roberto Maddalon, CEO Diplomatic MS Spa.

The history of Diplomatic Academy began in 2008, when it was founded to support the company's change process. Since then, it has become the heart of the Diplomatic Group's human capital training, professional development, and knowledge sharing. The training initiatives, free and accessible to all, are designed to bridge the skills gap in the evolution of hydraulics and in the new frontiers of innovation. The project is based on the engineering expertise developed by Diplomatic MS over 70 years of history and success.

"In line with our constant search for innovation, Diplomatic Academy has launched a digital course program since 2021, anticipating the training needs of the motion control industry," said Giancarlo Scagliotti, Director of Diplomatic Academy.

On its fifteenth anniversary, Diplomatic Academy confirms its mission to train professionals in the design, installation, and maintenance of systems with hydraulic and electrical components. The training offer includes personalized, accessible, and free courses, with certifications and educational resources. Upcoming initiatives include training on the maintenance of hydraulic systems, mechatronics and webinars dedicated to hybrid systems and chillers.

Diplomatic Academy in figures:

- Over 600 participants
- More than 380 companies involved
- Over 2,300 hours of training provided.
